

## DOOR MANAGEMENT SYSTEMS

with technology  
**Click&Go**  
ZEROTIME®

Insert the plug connector...  
snap it in place...  
that's all you need for  
a perfectly working system...  
**Click&Go!**

## STAND-ALONE UNIT

Readers and numerical keypads  
for creating access control systems

3 devices with 5 different functions,  
in a single unified convertible module

in 5 installation types next to door.

# Ultraslim and supercompact devices in unified convertible format in 5 installation types next to door.

Insert the plug connector...  
snap it in place...  
that's all you need for  
a perfectly working system...  
**Click&Go!**

Alphanumeric  
keypads  
**SLIM-CODEGUARD**

Proximity  
badge readers  
**SLIM-PASSGUARD**

Micro stand-alone  
control unit  
**SLIM-HANDTRONIX**

## Unified module because....

A full SLIM & MODULAR range of devices with different functions, operations and purposes (code keypad, badge readers, micro stop and go display control panels, and stop and go display panels, entryphones and button panels on same series...) designed and made bearing in mind a single module of one size (Same for all). In fact, all the devices have the same appearance, size and modularity in order to be interchangeable and to be housed in the same unified chasing of the previous lock.

## Convertible because...

Using unified flanges, cases and boxes, any unified SLIM & MODULAR device is convertible into 5 different types that can be installed in any way, next to the door, based on the assembly needs found in the field.

### Assembly type 1

**fully aligned concealed**  
for recess-mounting  
without flange on the  
same plane of the  
door frame panel

Unified body of modular  
device recess mounted  
set flush into surface  
door frame level

### Assembly type 2

**fully aligned at milling**  
or recess-mounting  
with front flange  
on the same plane  
of the panel surface

Unified body of  
modular device  
with front flange

### Assembly type 3

**for conventional  
flush mounting**  
with front flange  
overlapping door frame

Unified body of  
modular device  
with conventional  
front flange

### Assembly type 4

**for surface mounting**  
with using housing

Unified body of modular device  
included in housing

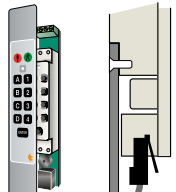

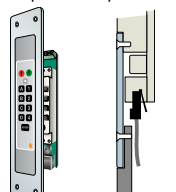

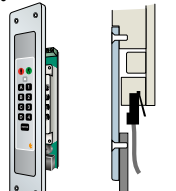

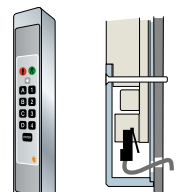

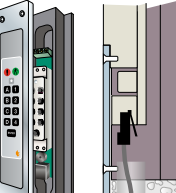

### Assembly type 5

**for recessed wall-mounting**  
with flange and wall-mounting  
receptacle

Unified body of  
modular device with  
front flange  
and wall  
mounting  
receptacle

<p><b>Assembly type 1</b> fully aligned concealed for recess-mounting without flange on the same plane of the door frame panel *</p> 	<p>SLIM-CODEGUARD access code keypad, Type 1 "CLICK &amp; GO" technology, with fully aligned concealed for recess-mounting on the same plane of the door frame panel without a flange. Ideal to achieve a surface (without roughness) that is easy to clean. Supplied with front panel and gap G for sections with a thickness of 1.6 mm. Complete with self-adhesive cover designed to be applied after the final installation of the system.</p> <p><b>* In this case it is advisable to prepare the recess during the door frame machining.</b></p> <p>Same with front panel and gap G for sections with a thickness of 3 mm.</p>	<table border="1" style="width: 100%;"> <tr> <td style="width: 30%;">034991NW2U</td> <td style="width: 30%;"></td> <td style="width: 40%;"></td> </tr> <tr> <td>034991NW2U3</td> <td></td> <td></td> </tr> </table>	034991NW2U			034991NW2U3

**Special configurations available at extra charge:** Cover with your logo and/or customized.

*For sizes, measurements and details of chasing, application examples and connection diagrams, see page 39.*

## Detail of the components and control buttons of the unit SLIM-CODEGUARD

Example of "Click & Go" connection via Masterwires cable

## Assembly type ① fully aligned concealed for recess-mounting on the same plane of the door frame panel without a flange

## Assembly type ② fully aligned at milling for recess-mounting with front flange on the same plane of the panel surface

## Assembly type ③ for conventional flush mounting with front flange overlapping door frame

## Assembly type ④ for surface mounting with using housing

## Assembly type ⑤ for recessed mounting in wall-mounting receptacle with flange and wall-mounting receptacle
